LUCAL MATTERS

: DESTRUCTION

Figure-On Friday evening about 8 o'clock a framed dwelling house owned by Mr. Briant, who is in Europe, and situated on the new furnpike at the foot of the poor house bill, took fire and was totally destroyed. Loss, \$600. No slarm was given.

THE FIRE SATURDAY NIGHT .- Saturday light about 9 o'clock, persons passing from Franklin to Main down Nineteenth street, on the east side, discovered flames issuing rom the storehouse of L. Lottier, situated by Abner Harris as a tobacco factory.

For the South Atlantic States, clear weather, followed by increasing cloudiness and occasional rain, warm southwest veering to colder northwest winds. Mr. Lottier had been in the habit of storing his bright leaf here and removing it to his factory, northeast corner Nineteenth and Franklin streets, as he needed it. He is insured in the Royal for \$3,000.

That amount will probably not fully cover his loss. But it is impossible to ascertain until the tobacco is examined by daylight. The building, which belongs to the Palmer estate, was but slightly injured. A few hundred dollars will, it is thought, completely restore it.

THE ECLIPSE TO-DAY-METEOR FRIDAY .-Friday evening about twenty minutes past o'clock a meteor of unusual size and brilliancy was seen by many persons in the city. As seen and described by a wellknown city dignitary it appeared, in the city. When first seen it was about 450 one third of its bulk; the remainder continued to descend to about 200 above the borizon, when it again exploded and dis-

appeared. The meteor appeared much larger than any of the planets. It was of a bright yellow appearance when first seen, but changed to a flaming red in its passage through the air. No report from the explosion was heard by any one in this city so far as we have been informed.

The much-talked-of eclipse of the sun will occur this afternoon about half-past 4 o'clock. Viewed from this point the obscuration will be between one balf and two
